

Hideout Local District 1

Meetings & Billing Instructions

From time to time, your project may call for a meeting with the Hideout Local District (HLD). Some of these meetings are optional and billable; others are required and provided at no cost. The guidelines below explain when a meeting is needed, who should attend, and how it will be billed.

Web Meetings — Standard Rate

All web meetings with HLD are billed at **\$200 per meeting**, unless otherwise noted below.

Optional Meetings

If the Owner asks the Engineer to discuss questions or concerns directly with HLD, that meeting is optional and will be billed at the standard web-meeting rate above.

Mandatory Meetings — Billable

A meeting with HLD is required, and will be billed at the standard web-meeting rate, if either of the following applies:

- The Engineer is requesting approval to extend stormwater storage drain elements outside the building envelope.
- After a good-faith effort, the Engineer cannot achieve the required **60% peak discharge reduction** due to unique site conditions and is requesting review of proposed alternatives and a path to compliance.

Mandatory Meetings — No Charge

In the following situations, a web meeting with the **Civil Engineer, Contractor, and HLD** is required. There is **no charge** for these meetings:

- The Shoulder Ditch has not yet been installed.
- The Lot is within 100 feet of a catch basin or road sag.

Questions?

If you're unsure whether your project requires a meeting, reach out to HLD before scheduling — we're happy to help you determine the right next step.
